

Dual-Sided Mitt

This multipurpose mitt can be used dry or with water only to dust and clean everything. It replaces chemical-laden, all-purpose cleaners and paper towels so it's safer for your family and better for the environment!

limited-edition

Item #: E30797

25 cm x 15 cm / 9.84" x 5.91"

The problem

Dusting and cleaning all your home's surfaces quickly and completely can be time-consuming. It also usually requires expensive cleaning products containing harmful chemicals that could make your family sick. And cleaning with paper towels creates single-use waste. Wouldn't it be nice if there were one reusable product that worked even better using only water?

Norwex solution

Clean more safely, quickly and thoroughly using a super-absorbent Norwex Dual-Sided Mitt and water only! You can quickly dust and clean at the same time, and it helps protect your family's health while reducing landfill waste and chemicals in your home.

Why it's better

- Densely woven, superfine Norwex Microfiber physically removes up to 99% of bacteria from a surface with water alone when following proper care and use instructions
- Eliminates the need for harmful chemical cleaners and wasteful paper towels
- BacLock®, our exclusive micro silver agent, protects the cloth by inhibiting odor in the cloth, which means it's ready to use again and again
- STANDARD 100 by OEKO-TEX® certified, this product and its components have been tested against a list of over 350 harmful substances and passed, enabling you to make responsible decisions for you and your family

What your customers will love

- Can be used for both dusting and general cleaning at the same time
- Dense, plush fibers on the dusting side attract and hold dust and allergens like a magnet
- EnviroCloth® side is great for heavier cleaning with water only; plus it's super-absorbent to quickly wipe up spills
- Traps dust and grime in the mitt and leaves surfaces cleaner, so you won't have to clean as often
- Saves money by eliminating expensive cleaning and dusting products

How to use

- Use the thick, plush side dry to dust all surfaces, including mini-blinds, fans, lamps, banisters, chandeliers, plants, cupboards, vents, fireplace screens and more
- For more heavily soiled surfaces, moisten the EnviroCloth side to clean thoroughly
- When using on easily scratched surfaces such as brushed stainless steel, first test Norwex Microfiber on an inconspicuous spot
- Not for use on anti-glare surfaces

Caring for microfiber

Wash dirty microfiber with a Norwex laundry detergent and avoid bleach, fabric softeners and dryer sheets. For complete instructions, go to your *Consultant Office* > *Product Info* > *Product Instructions* > *Microfiber Care & Use*.

(continued on next page)

*BacLock is an antimicrobial agent solely intended to protect and self-clean the cloth by inhibiting growth of odor-causing bacteria, mold and mildew.

All Norwex Microfiber products carry a two-year warranty. Please visit www.norwex.com/product-guarantee for complete details.

This product was independently tested for harmful substances according to the strict global criteria of STANDARD 100 by OEKO-TEX®.

Did you know

- Dust can contain up to 45 chemicals, including phthalates and flame retardants, and stir up allergies and asthma. Many cleaners leave a waxy residue that actually collects more dust, while regular cloths just move dust around, sweeping it up into the air to resettle again.
