

# Linen Spray

Lightly scented lavender spray helps freshen bedding, clothing and the air with a calming aroma.

## limited-edition

Item #: Lavender-IN2332

120 ml / 4 fl. oz.

## The problem

Perhaps you experience restless nights and would appreciate the scent of lavender on your bedding to restore a sense of calm. Or maybe you'd simply enjoy a light, fresh scent of lavender on your clothing or bedding or to freshen the room. Regardless, you certainly don't want any harmful chemicals from synthetic fragrances touching your skin or polluting the air you breathe.

## Norwex solution

The calming aroma of lavender essential oil freshens pillows, bed linens, clothing and can also be used as a room freshener, all without the harmful ingredients of some synthetically fragranced products. It even helps freshen items before they're laundered, so you don't have to wash clothes as often, in turn saving time and water.

## Why it's safer

- Free from harmful chemicals that have been linked to a variety of health concerns
- Non-flammable
- No aerosol propellants
- Container is recyclable, HDPE #2

## Free from

- Parabens
- Formaldehyde
- Alcohol
- Sulfates
- Synthetic dyes
- Artificial fragrances

## What your customers will love

- Light calming scent
- Multi-use product can be used on bedding, clothing, upholstery, curtains, carpets, even workout gear to keep them fresh
- Can be spritzed in the air to freshen rooms
- Earth-friendly and non-toxic
- Allows more time between laundering
- No animal-derived ingredients

## How to use

- Shake well before using
- Always test on an inconspicuous area before spraying a surface
- Lightly spray on pillows and linens and allow to dry before getting into bed
- Relax in the soothing scent

## Ingredients

Aqua/Water/Eau, Polysorbate 20, Lavandula Angustifolia (Lavender) Flower Oil, Potassium Sorbate, Linalool, Limonene.

## Did you know

- Many aerosol sprays and scented candles contain harmful chemicals such as formaldehyde and phthalates
- Aromatherapy, the therapeutic use of essential oils, is known to help evoke feelings of calmness and comfort
- Some studies suggest that several essential oils like those extracted from lavender and others have been shown to help relieve anxiety and stress
